PROFILE SUMMARY

Targeting **Web & Mobile Application Developer** roles with an organization of high reputation with a scope of improving knowledge and further career growth.

- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

Online Food Ordering Application

Sep 2024 – Dec2024

Tools: Visual Studio, C#, ASP.NET, SQL Server

A full-featured blog application enabling users to register, authenticate, and manage their blog posts seamlessly.

Responsibilities:

- Developed the backend using **ASP.NET**, ensuring a robust and scalable architecture.
- Implemented **user authentication and authorization** to secure access and manage different user roles.
- Designed and managed the **SQL Server database** for efficient data storage and retrieval.
- Built a responsive and user-friendly interface using **ASP.NET and C#**.
- Ensured smooth order processing and real-time updates for users and restaurant owners.

Ticket Tracker Application

June 2022 – July2023

Tools: Visual Studio, C#, SQL Server

A comprehensive **ticket tracking system** that allows users from different labs to **log in, create tickets** for lab-related issues, and request assistance from the administration. The administration assigns the issues to appropriate personnel for resolution.

Responsibilities:

- Developed the entire application using **C#**, ensuring a structured and efficient system.
- Implemented **user authentication and authorization**, allowing different user roles (Lab Users, Administration, and Technicians).
- Designed and managed the **SQL Server database** for secure and efficient ticket storage and tracking.
- Created a **ticket management workflow**, enabling smooth issue reporting, assignment, and resolution tracking.
- Ensured a streamlined process for lab users to report problems and for administrators to assign and track resolutions.

SKILLS

Programming: Java, JavaScript, HTML/CSS, SQL, React.js, C++, C#, C, Dart

Tools: Android Studio, Visual Studio, VS Code, Git, Bootstrap,
